

## **GHL Private Integration API Instructions**

### **1. Obtaining the GHL Private Integration Token**

1. Log in to your GoHighLevel (GHL) dashboard.
2. Navigate to Settings -> API Keys -> Private Integration.
3. Create a new token or copy an existing one.
4. The token should look like: pit-xxxxxxxx-xxxx-xxxx-xxxx-xxxxxxxxxxxxxx.

### **2. Complete Working Code Example**

```
import requests
```

```
base_url = 'https://services.leadconnectorhq.com'
```

```
token = 'YOUR_PRIVATE_INTEGRATION_TOKEN' # Replace with your token
```

```
headers = {
```

```
    'Authorization': f'Bearer {token}',
```

```
    'Version': '2021-07-28',
```

```
    'Content-Type': 'application/json'
```

```
}
```

```
response = requests.get(f'{base_url}/locations/YOUR_LOCATION_ID', headers=headers)
```

```
print('Status Code:', response.status_code)
```

```
print('Response:', response.json())
```
